## International Geological Congress Banquetted

Elaborate Function Held at Rocky Mountain Sanatorium Under Auspices of Canadian Mining Institute and Mine Managers

The reception given the members of the C-2 excursion of the International Geological Congress at the Rocky Mountain Sanatorium on Monday night was the biggest affair of its kind yet held in Southern Alberta.

The gathering, comprising some sixty-five members of the congress and their lady friends, was the most representative gathering that has ever been on an international tour. Twenty-one nationalities were represented, including delegates from Austria, Belgium, Chile, Denmark, Egypt, Finland, France, Germany, Great Britain, India, Ireland, Italy, Japan, Manchuria, Netherlands, Newfoundland, Russia, South Africa, Sweden, United States and Canada.

This twelfth session of the geological congress is under the able leadership of Professor W. Brook, director of the geological survey of Canada, with J. McEvoy, of Toronto, as associate leader, H. E. T. Haultain, professor of mining engineering, Toronto University, as secretary, and H. Frechette, of the Ottawa mines branch as assistant secretary.

The party are also accompanied by the Hon. Louis Coderre, of Ottawa; Mr. and Mrs. Bedford McNeill, of the Institute of Mining and Metallurgy, England; and J. B. Tyrell, of Toronto.

The party comprising 130 in number sat at a sumptuous luncheon at 3.30 p.m. The programme consisted of Alberta-raised goods, even the rainbow trout taken from the Crow's Nest River for the occasion.

After luncheon a lengthy coast list was taken up by the chairman, O. E. S. Whiteside, general manager of the International Coal & Coke Co., Coleman.

J. L. Parker was called upon to represent the North-West Branch of the Canadian Mining Institute. He stated that ten years ago he used his first pick in this part of the country as a prospector. He treated his subject under three captions, namely The Prospector or Promoter, The Operator, and the Stockholder. The promoter he regarded as the most important of the three. The prospector could locate the minerals, but it required a clever promoter to interest the capitalist and bring about developments. He wished the congress to realize the vast extent of our yet unexplored resources, which lay dormant until awaiting the time and the capital to bring about the development of the greatest coal fields on the American continent. In 1904 the International Coal Company started operations on their claims at Coleman. Today the International mines are producing an average of 1700 tons per day. Operations of the Hillcrest Coal Company started a few

years later, and the Hillcrest company are now handling over 1100 tons of coal per day. Other new developments are working along a similar line of prosperity. He believed that in ten years from now, instead of 8,000 per day, the mines of the eastern slope of the Crow's Nest Pass would be sending to market 20,000 tons of black diamonds.

H. J. Louis Coderre, Canadian minister of mines, spoke at length upon the mission of the present congress and what Canada had to present for their consideration. He believed that regarding the mining possibilities of Canada West one could hardly tell a lie today that would not be the truth tomorrow. The mineral properties of western Canada are yet only in an initial stage of development. What the future will bring forth we have no reason to doubt. He was pleased to note the great interest being taken by the West in the excursion of the International Geological Congress, and felt that the visit of that body will mean much to the increasing interest of capitalists in this great country.

Mr. McNeill, of London, England, emphasized strongly upon the warm hospitality accorded the congress on their present visit. On no occasion of their tour have they been so warmly received.

Other speakers included Dr. H. E. Boeke, Professor Mineralogisches Institute, Halle, A. S. Germany; Dr. F. R. VanHorne, of the Case School of Applied Science, Cleveland, Ohio, U.S.A.; Dr. O. B. Boggild, Professor Mineralogical Museum, Copenhagen, Denmark; C. W. Wright, of Sardinia, Italy; Dr. B. E. Fernow, Dean of Faculty of Forestry, University of Toronto; Dr. Frederic B. Peck, of Lafayette College, Easton, Penn., U.S.A.; Lorent Edward Theodor, Dahlblom, Bergsmästare in Gelle-Dala District, Sweden.

Wilson McDonald proposed the toast to "The Ladies," to which Messrs. C. L. Dunn and John Ashworth made suitable response. Mrs. Dr. Fernow, of Toronto, and Mrs. Bedford McNeill, of London, England, also responded.

Mr. Ashworth in his remarks to the ladies referred to the interest they (the ladies) were manifesting in the work of this congress. He felt that the administrations of such an assembly as this, representative as it was of all nations, meant much towards the peace of the world and the advancement of unity among all nations.

Chutaro Kido, Superintendent of the Geological Institute of the South Manchuria Railway Company, of Dairen, Manchuria, was also a speaker. He felt surprised at the rapid progress of Canada in general, and believed that this particular

part of the Dominion must become one of the greatest industrial centres of the world. John Brown, manager of the Hillcrest mines and vice-chairman of the International Congress, proposed the toast to the Congress. He welcomed the visitors in behalf of the Alberta Government, the Rocky Mountain branch of the Canadian Mining Institute, and of the coal operators of the eastern slopes.

Mr. R. W. Brock, leader of the excursion and deputy minister of mines, made the first response. Mr. Brock addressed the gathering at length. He expressed pleasure at being a Canadian. In the geological world Canada was taking a foremost place as a unit. The present congressional gathering was the most representative held since the year 1878. Since that time twelve such assemblies have been held. This was by far the most important, most representative, and the most distinguished congress that has yet been held. They recognized the true spirit of hospitality expressed by people of the west. While visiting eastern and central Canada they had looked forward to the west for typical Canadian hospitality. He felt the importance of his position in connection with geological work in Canada, and would always feel disposed to do his utmost for the promotion and advancement of the mining industry throughout the Dominion.

Mr. Wilson McDonald entertained the gathering with his poem "The Snowshoe Tramp" and sleight-of-hand.

Mr. Raori Greensang a couple of songs.

Every praise is due the committee of the Canadian North-West Mining Institute under the direction of O. E. S. Whiteside, for the manner in which the reception was managed, and particularly the management of the Sanatorium who flung their doors wide open and accorded full freedom and hospitality to the distinguished gathering.

Editor Quynle, of the Lethbridge Herald, and W. J. Bartlett, of the Enterprise, represented the press.

The Coleman orchestra was in attendance and discoursed excellent music throughout the evening, as did also the excursionists' bag-piper, parlor car conductor Ferguson, who led the gathering in processional style in and out of the dining room.

Among the local guests were Mr. and Mrs. R. Green, Mr. and Mrs. W. P. Williams, Mr. and Mrs. John Smith, Mr. and Mrs. L. H. Robert, Mr. and Mrs. O. E. S. Whiteside, Mr. and Mrs. R. B. Buchanan, Mr. and Mrs. A. E. Porter, Mr. and Mrs. D. A. Macaulay, Mrs. Riddell, Mr. and Mrs. Rogers, Mr. and Mrs. Quigley, Mr. and Mrs. J. K. McDonald, Mr. and Mrs. J. McKeegan, Mr. and

# PRESIDENT SUSPENDER

NONE SO EASY

**Origin of the Calabash**  
The calabash used in pipes is an own cousin to the cucumber, the melon and the squash—a hard rinded fruit. The family Lagenaria vulgaris. A British soldier had broken his pipe, and all that remained of it was the hard rubber mouthpiece. While crossing a field one day he stepped on a calabash gourd, and noticed that the cross of the stem resembled his pipe. Picking up the gourd he cleaned out the inside, fitted his mouthpiece inside it, and the first calabash pipe was born, says the Cigar and Tobacco World. The gourd was green and did not burn out, and it colored beautifully, so when the Boer war was over Tommy Atkins returned to England with his pipe a number of gourd. But the dried gourds turned out, and it was necessary to line them. Zinc was first tried, and proved unsatisfactory and then mercurium and the compressed mercurium substitute were employed as they are today.

**Cold Storage Plants**  
Statistics issued by the cold storage branch of the department of agriculture, Ottawa, show that during the six years which have elapsed since the passage of the act to encourage the erection of cold storage warehouses, much has been done along that line. Warehouses costing approximately \$2,000,000 have been erected in different parts of the Dominion, and four more are at the present time under contract. No assistance has been given to any company proposing to build in places where cold storage establishments already exist.

**The Reward of Kindness**  
A man going home at a late hour in the night saw that the occupants of a house standing flush with the street had left a window up, and he decided to warn them, and perhaps prevent a burglary. Putting his head into the window he called out—Hullo! good evening. That was all he said. A whole pall of water struck him in the face, and as he staggered back a woman shrieked out. Didn't I tell you what you would get. If you want home by 9 o'clock!

**Not a Difficult Job**  
A woman of evident Hibernian ancestry recently called at a photographer's and arranged for a group picture of her two children, which she wished taken at her home, surrounded by the furnishings with which she was familiar. When the photographer called with his camera there was but one youngster in evidence and he asked for the other one. Oh, replied his patron, Michael died 4 years ago, but I can give you a description of him that you can't hit to make a swate picture.

**Painting the Royal Portraits**  
Mr. John Lavery has long been recognized as one of our cleverest portrait painters and he has been further honored by a commission to paint the new Royal portraits of King George V. and the Duchess of Argyll are great admirers of his work, and they are largely responsible for him securing the Royal commission. Mr. Lavery is a native of Belfast and pursued his artistic studies in Glasgow, London, and Paris. He has pictures in all the foremost corporation galleries of Manchester, Bradford, Glasgow and other big cities.

**Sticking to Facts**  
A lady had a new maid, who appeared at the door of the library one afternoon, where her mistress was reading. There's no coal maid, said the maid, and the mistress was going out. No coal, cried the mistress in surprise. Why didn't you tell me before? I couldn't tell you there was no coal, ma'am, replied the girl, when there was coal.

**Wooden, Anyhow**  
The late Sir W. S. Gilbert was inclined to be witty at the expense of the men and women who like to do amateur acting in the name of charity. An enthusiast once said to him, Mr. Gilbert, are not you think of our amateur club? I think they are not so much a club as a bundle of sticks, returned the master of repartee.

A boy who was passing the shop thought he had found a job at last when he saw a sign in the window: Boy wanted. He went in and asked the proprietor about it. Yes, said the storekeeper, I want a good, bright boy to be party indoors and party outdoors. That's all right, said the applicant, but what becomes of me when the door slams shut?

The late Judge Silas Bryan, the father of William J. Bryan, once had several hams stolen from his smoke-house. He missed them at once, but said nothing about it to anyone. A few days later a neighbor came to him. Say, Judge, he said, I heard your hams were stolen from your smoke-house. Yes, replied the judge, very confidentially, but don't tell anyone. You and I are the only ones who know it.

**Editor—Who was the first humbug?**  
Author—I really don't remember. Editor—I thought you might; you have been bringing us in his jokes.

Let me congratulate you, Mrs. Thompson. That's a beautiful little boy you have there. I don't think it to Mr. Jones. You don't? I'm surprised to hear you say such a thing. Why don't you tell him? Because he's a beautiful little girl.

**A Rollo**  
I have called, said the candidate to the man at the door, to find out if I can count on your support at the poll. Half a minute, sir, growled the independent elector; I want to ask you something. Are you in favor of this electric lighting scheme? I am, sir, proudly proclaimed the candidate. Then got off my doorstep! he roared, the lights are all there. I'm the lamplighter.

Doris was radiant over a recent addition to the family, and rushed out of the house to tell the news to a passing neighbor. Oh, you don't know what we've got upstairs! she cried. What is it? It's a new baby brother! And expectantly she watched the effect of her announcement. You don't say so! he is going to stay? I think so very thoughtfully—He's got his things off.

**Mother—Oh, Bobby, you naughty boy, you've been smoking! (Pause). Poor, poor darling, do you feel very bad? Bobby (who has been well brought up). Yes, thank you; I'm dying.**

**Not Entirely**  
Have you lived here all your life? I asked a drummer of a lean, leathery jawed Tennessee mountaineer who stood idly leaning against a rail fence. The mountaineer shifted his weight from one foot to the other and replied: Not yet.

**Micror's Liniment Cures Diphtheria**  
Barber (beginning the haircut)—Have you heard the story about the man that—(resuming business)—that it short, sir? Customer (a tired editor)—Yes, a mere anecdote will do!

The manager of a well-known touring company wired to the proprietor of a theatre in a small town where his company was to appear: Would like to hold a rehearsal at your theatre at three o'clock—tomorrow afternoon. Have your stage-manager, stage-carrier, assistant stage carpenter, property man, chief electrician, and all the hands present promptly at that hour.

Three hours later he received the following reply: All right. He will be here. I say, how is that new baby over at your house? It's a howling success.

**Always the Way**  
This is the truth, it is no jest. As you yourself can plainly see. Just give a man a day of rest. And see how restless he will be. You are ninety-seven years old? Yes.—What are your rules for reaching such an unusual age? I know as I have any in particular. Just keep on living, and you'll get there, young man.

**No Escape.**  
I thought that poor little hen-pecked man was going to take a sea trip for his health? He has changed his mind. Why not?

He found out that through the wonders of wireless telegraphy his wife could keep in touch with him every day.

Corns and warts disappear when treated with Holloway's Corn Cure without leaving a scar.

**Jones—My wife and I suffer from alternate insomnia.**  
**Brown—Alternate insomnia! What is it?**  
**Jones—Whichever gets to sleep first keeps the other awake all night.**

You cannot afford brain-boggling headaches.  
**NA-DRU-CO Headache Wafers**  
stop them in quick time and clear your head. They do not contain either phenacetin, acetaminophen, opium or any other dangerous drug. 25c. a box at your Druggist's.  
NATIONAL DRUGS AND CHEMICAL CO., ST. CATHARIS, ONTARIO.

**Wanted to Know**  
About how much does an automobile outfit for a woman cost?  
Oh! my, are you going to buy an auto?  
No. I just wanted to figure out how far beyond his means your brother Bill is living.

**Angry Diner—Walter, you are not fit to serve a pig. Walter—I am doing my best, sir.**

**Traveler—Why do you make the sandwiches so dreadfully small? Waiter—We make 'em small sir, so you won't miss the trail.**

**Mrs. Flubdub—My husband goes out every evening for a little constitution. Does yours?**  
**Mrs. Guzler—No; my husband always keeps it in the house.**

**Progress**  
Daughter, I asked the young man who was tall talking with you whether he knew how to dance.  
Yes?  
He said he knew the holds, but not all the steps.

Here, began a woman, here's an article in the paper on Woman's Work for the People's Mind.  
Her husband grunted.

I'd like to know, he said, what women have ever done for the feeble-minded.  
They usually marry them, dear, replied his wife, sweetly.

**Modern Girl—if you really loved me during the time I didn't let me know? Modern Youth—I couldn't find a post card with the right words on it.**

## HOW THE CANADIAN PACIFIC RAILWAY CARES FOR THE PUBLIC & FOR THE MEN WHO WAIT ON THE PUBLIC.

**COMMERCIAL BUILDING.**  
A citizen of the world wishing to spend a holiday at Banff, in the heart of the Western Canadian Rockies, and to make a business journey along the lines of the Canadian Pacific Railway, finds his sleeping car berth, beside the train, and sits in the luxurious surroundings while he receives the attention of the trainmen, and has little idea of the vastness of the enterprise upon which he bestows his patronage, nor of the tremendous system which must be maintained in order that he and other likewise minded may travel in such safety, comfort and luxury. For instance he goes to bed and does not know that an army of men four thousand strong is employed by this Dining and Sleeping Car Department. He is not aware that the same army of thirty thousand people from Vancouver to Halifax, giving such a sleeping berth and supplying ninety thousand meals a day, or practically half a million on the five day journey across the continent. Again, he does not realize that, if the dining and sleeping cars of the Canadian Pacific Railway were made up into a single train with a locomotive at each end, it would require an army of men to handle the train, and that the train would be fourteen miles long. To men this city on wheels would require an army of men to handle the train, and that the train would be fourteen miles long. This is exclusive of the hundreds of additional men who are engaged in the capacity of baggage men, conductors, firemen and engineers, a total of about 10,000 men.

**TAKING CARE OF THE PUBLIC.**  
It would take a great deal of space to tell how the Canadian Pacific Railway takes care of the public which patronizes its lines and how also it takes care of those employees whose duty it is to minister to the comfort of that public. Yet the C.P.R. has taken many steps in that direction and it is safe to say that in a dining and sleeping car it stands ahead of any road on the continent when it comes to treating its dining and sleeping car employees humanely and sanely. These men are as desirable a class of public servant as can be found in any private house from the point of view of efficiency, personal cleanliness and freedom from danger of spreading disease. The company is so considerate of its men as it is of the general public and it is fully aware that such a course is simply good business.

Certainly the most colossal task that presents itself to the C.P.R. is that of providing for the dining cars to feed the hungry multitudes who cross their thresholds each morning. The company estimated that in the summer season the C.P.R. serves on an average twenty thousand meals a day on its cars. For many years the company has been grappling with this problem, and it is the general public who are the real beneficiaries of the enormous expense and the enormous effort that the company has made to solve this problem.

The first problem was to secure a steady and permanent source of food. The company has secured this by purchasing large tracts of land in various districts, and by planting them with fruit trees and other crops. These tracts are now producing a steady supply of fresh produce for the dining cars. The company has also established a chain of commissaries throughout the country, and these commissaries supply the dining cars with fresh produce at the lowest possible price. In this an absolutely radical departure was made from the old system of purchasing produce at the highest possible price.

The second problem was to secure a steady and permanent source of food. The company has secured this by purchasing large tracts of land in various districts, and by planting them with fruit trees and other crops. These tracts are now producing a steady supply of fresh produce for the dining cars. The company has also established a chain of commissaries throughout the country, and these commissaries supply the dining cars with fresh produce at the lowest possible price. In this an absolutely radical departure was made from the old system of purchasing produce at the highest possible price.

The third problem was to secure a steady and permanent source of food. The company has secured this by purchasing large tracts of land in various districts, and by planting them with fruit trees and other crops. These tracts are now producing a steady supply of fresh produce for the dining cars. The company has also established a chain of commissaries throughout the country, and these commissaries supply the dining cars with fresh produce at the lowest possible price. In this an absolutely radical departure was made from the old system of purchasing produce at the highest possible price.

**INTERIOR OF DINING CAR.**  
Fruits and vegetables form a large item on the dining car menu. The Canadian Pacific Railway imports these from all parts of the world, and often them on his tables before they are available elsewhere. The quality of the Canadian Pacific produce is ready the preference is given to the fact that the company specializes in the famous fruits and vegetables of British Columbia and contracts for these products for the entire season.

the entire requirements, especially apples and potatoes, for this service for all western lines one year in advance. The quality of these fruits, such as apples, plums, cherries, pears, and vegetables such as celery and potatoes are the highest in the continent.

One really obsolete problem has confronted

the Canadian Pacific and that has been the supplying of food and past for its patrons. The dining and sleeping cars of the Canadian Pacific are the most comfortable and the most comfortable of the continent. The dining and sleeping cars of the Canadian Pacific are the most comfortable and the most comfortable of the continent. The dining and sleeping cars of the Canadian Pacific are the most comfortable and the most comfortable of the continent.

**A MODERN SCIENCE.**  
Modern medicine, modern hygiene, preventive and curative, has reduced life to practically its highest point. The dining and sleeping cars of the Canadian Pacific are the most comfortable and the most comfortable of the continent. The dining and sleeping cars of the Canadian Pacific are the most comfortable and the most comfortable of the continent.

**ITS FIRST CARE.**  
One of the first cares of the Canadian Pacific Railway is to see that all its employees are particularly healthy and clean and to this end it has been most elaborate in its efforts. The dining and sleeping cars of the Canadian Pacific are the most comfortable and the most comfortable of the continent. The dining and sleeping cars of the Canadian Pacific are the most comfortable and the most comfortable of the continent.

the dining and sleeping cars of the Canadian Pacific are the most comfortable and the most comfortable of the continent. The dining and sleeping cars of the Canadian Pacific are the most comfortable and the most comfortable of the continent. The dining and sleeping cars of the Canadian Pacific are the most comfortable and the most comfortable of the continent.

Geological Congress, made up  
as it is of representatives of  
practically every nationality  
and tongue of the civilized  
world, cannot but place Canada  
and her industrial opportunities  
before the capitalists of the  
entire world.

The Pass Lovers are enjoying  
prosperity owing to the rapid  
development of the coal and other  
industries. That is the direction  
in which a get acquainted trip  
should be organized. It can be  
financed cheaper by train than by  
automobile and that is certainly  
legitimate Lethbridge territory—  
Lethbridge Herald.

Canada already figures largely  
in the world's geology. She  
is yet but a young land. The  
present is but a dream of the  
great future possibilities of the  
Dominion. Our richest mineral  
wealth has not yet come to  
light and but requires the lapse  
of time and capital organization  
to materialize the greatest in-  
dustrial developments the world  
has ever known.

Hon. McCodere, at the banquet  
given to the International  
Geological Congress on Monday  
night, stated that the difficulty  
experienced in raising foreign  
capital for Canadian industries  
is brought about mainly by the  
"dishonest methods" used in  
promoting. One of the objects  
of the present session of the  
congress was to gather infor-  
mation and study existing con-  
ditions so as to be in a position  
to furnish financiers with an  
authentic statement.

The Lethbridge Herald of  
Tuesday has the following to  
say about Blairmore: "The  
mine here is well equipped and  
the busy little town created a  
most favorable impression.  
Blairmore is prosperous. Big  
payrolls at the mines and  
cement works means big general  
and generous distribution of  
the needful. And the present  
industries are not all. Another  
cement mill is to be erected  
shortly and another coal mine  
is to be opened. Blairmore—  
population 3,000—will soon be  
featured in the guide books.  
There is a brewery there, too,  
only it isn't brewing. Built by  
local men, the building is a  
credit to the town. More cap-  
ital is required to operate it  
and when that is forthcoming  
Blairmore will have another  
payroll. One of the interesting  
industries for a mountain town  
is a dairy with a herd of 90 cows  
attached, which supplies cream  
from Burnis to Coleman."

## Prosecution Will Be Abandoned

It is probable that the Crown will  
enter a nolle prosequi in the case of  
the King vs. Murr. In this case  
Murr was accused of Mr. Muir, his  
partner in the ownership of the Cole-  
man Hotel, of having retained more  
than his fair proportion of the profits.  
Mr. Murr has made an assign-ment  
of several thousand dollars' worth of  
property to Muir, and the criminal  
prosecution will probably be dropped.  
L. W. McDonald, in representing  
Muir, while J. R. Palmer has acted  
as solicitor for Murr, Macleod Spec-  
tator.

sciences, professeur des sciences physique  
et naturelles au Seminaire de Philosophie,  
Montreal.

Dr. R. Bowling, geological survey, Ot-  
tawa.

O. S. Finlay, Department of the In-  
terior, Ottawa.

John Ashworth, M.E., Manchester,  
England.

Dr. H. E. Becker, Professor Mineralo-  
gische, Germany.

Sir Augustine Baker, Dublin, Ireland.  
E. M. Anderson, geological survey,  
Scotland.

Dr. L. H. Egorstrom, Universite Hel-  
singfors, Finland, Russia.

Dr. O. R. Hoggild, professor mineral-  
ogical museum, Copenhagen, Denmark.

R. W. Brock, Director Geological  
Survey, of Canada.

Hon. Louis Codere, Minister of Mines,  
Ottawa.

## Transparent Clothes

Great Scott and great Cawar! An old-  
fashioned geometer.  
He checked by your feminine clothes.  
With skirts that are suited to show off  
silk knitted  
Hose, garters, and fixings like those!  
A small piece of satin you can't wrap a  
cat in.  
Will make a grown woman a gown;  
Five corners of shoddy, will tug out a  
body.  
And then she goes prancing through  
town!  
The short-waisted fatty, the girl tall and  
slender.  
The maiden as thin as a rap,  
Go by in their hobble till man's reason  
—voluble—  
And old-timers sit up and gasp.  
If this be the fashion dreamers should  
cush in,  
But that they'll object to alas!  
They won't be contented till they have  
invented  
A woman's regalia of glass.  
Do dreamers' patrons e'er think of the  
maisons  
Of old, bless their various names,  
Their steady way going in drapery  
flowing.  
Those queenly and dignified dames?  
Oh, maiden! Oh, widdie! Just pause  
and consider  
Your factor, contrasted with theirs!  
Then Marys and Deeses, put on modest  
dresses,  
And throw your fierce rage down the  
stairs.  
—The Poet Philosopher.

## Free Gifts to Ticket Holders

The F. M. Thompson free gifts hold-  
ers of the following numbers will be pre-  
sented with their gifts on presenting cards bear-  
ing numbers from 1 to 25: 71, 124, 41,  
15, 120, 162, 82, 59, 104, 170, 135, 211,  
79, 4, 140, 139, 148, 118, 25, 245, 247,  
24, 124, 214.

Good Reason for the Anthelmintic

When a man has suffered for several days with colic, diarrhoea or other form of bowel complaint and is then cured sound and well by one of two doses of Chamberlain's Colic,

is often the case. It is but natural that he should be enthusiastic in his praise of the remedy, and especially in the case of severe attack when life is threatened. Try it when in need of such a remedy. It never fails. Sold

### Local and General

A. McLeod visited Macleod on Tuesday.

The public school re-opens on Monday next.

I. J. Waite came down from Calgary on Tuesday.

E. I. Gourlay was up from Pincher Creek over Sunday.

J. W. Gresham returned from Edmonton last week end.

Mrs. May of Hillcrest, purpose moving to Blairmore shortly.

Parties of berry-pickers are common around Blairmore.

W. A. Freeburger was up from Lethbridge on Saturday last.

Mar Foy paid a business visit to Lethbridge on Friday last.

The F. M. Thompson Co. purpose enlarging their present store.

E. L. Crane paid a business visit to Macleod on Saturday.

The Blairmore town council meets on Monday night next.

Harry C. Moore, paid a business visit to Calgary on Saturday.

Mrs. Kidd's maternity home, Box 95, Elbow 151, Blairmore.

Work on the new "Enterprise" building commenced this week. D. A. Sinclair has the contract.

A drunk was given a roost in the "cooler" on Wednesday night.

D. N. Drain came over from Sausalito, California, on Friday.

Look out for our big subscription contest to start on September 5th.

Volume 1, No. 1, of the Port Mann Chronicle, has just reached our desk.

Over four hundred people came to town on Saturday evening to do their shopping.

J. E. Upton, the Pincher Creek tailor paid his regular visit to the Pass on Saturday.

Mrs. Mark Drumm, Mrs. C. J. Tompkins and Miss Jerry, of Frank, visited B.C. this week.

W. Meyer, F. Sick, and M. J. King went on a fishing trip up the North Fork last week end.

W. L. Evans has moved his barn from Eighth Avenue to the rear of his residential property.

J. McPhail-Waggett will assist in the service at Knox Methodist church, Frank, on Sunday night.

The stork has alighted in the town of Frank and left a daughter with Rev. W. T. and Mrs. Young.

Mrs. H. Gibeau returned this week from a two-months' visit to Vancouver and other points west.

The first annual ball of the Cowley Tennis Club will be held tonight in the Cowley school house.

The stork visited the home of Mr. and Mrs. Farmer on Tuesday, leaving them a bouncing son.

We were favored with a fraternal visit from T. W. Quayle, editor of the Lethbridge Herald, on Monday.

M. J. King received slight injuries to one of his ankles while fishing at the North Fork on Sunday last.

Mr. and Mrs. Campbell arrived from Vancouver this week on a visit to Mr. and Mrs. A. W. Robbins.

The duck season opens tomorrow, Saturday, and many local hunting parties are being organized.

Rev. C. H. Huestis addressed the local branch of the Lord's Day Alliance at Coleman on Tuesday night.

D. A. Sinclair has received a contract for the erection of another substantial dwelling house on State Street.

T. Madden, proprietor of the Windsor Hotel, Lundbreck, is enjoying a holiday with his brother at Toronto.

A big field day will be held at Coleman on Monday, September 1st, under the auspices of the Order of Owls.

L. H. Putnam visited Macleod Saturday last in connection with the Blairmore Brewery and other legal matters.

W. J. Lutz, C. J. Tompkins, and A. Bower were part of a party of fishermen who trailed the South Fork on Sunday.

The best football game ever played in The Pass was played at Bellevue two weeks ago, when neither team scored.

Rev. R. A. Barron, of Chicago, will occupy the pulpit of the Presbyterian church on Sunday morning and evening next.

Francis and Sam Gibeau have just returned home after spending the summer holidays with friends on the Sooki Lake.

The final league game of the season was played between Coleman and Coal Creek on Saturday at Coal Creek. Coal Creek won the cup.

Dr. J. P. Howley, director of the geological survey of Newfoundland, is a member in attendance with the International Geological Congress.

Rev. W. T. Young, H. Dexter McKay, and others, who were in attendance at the Pincher Creek summer school, returned on Friday and Saturday.

Mrs. Baldwin and two daughters, of Brandon, Manitoba, spent a couple of weeks visiting relatives and friends in Blairmore, and returned home on Tuesday.

W. A. Mcleod and Dan Walker are doing big work up at Lillie. They are filling a contract for the mine company for an immense quantity of mining timbers.

At next Monday night's meeting the council will be asked to widen the roads approaching the town, to permit of the best setting of furniture and effects to Blairmore.

Mr. and Mrs. J. C. Hodgson, of Quebec, who have been visiting their sons Bruce and Cassin V. at Lundbreck and Cowley, came to town on a brief visit yesterday.

Christopher Church and wife will occupy the new residence being built by Contractor Sinclair on State Street. The building will be completed about September 1st.

The building formerly owned by A. McLeod, and which has occupied a place on the high-way line of Dearborn Street, has been removed to Fifth Avenue South.

Many citizens are complaining about the local post-office service, and it is time steps were taken to provide a larger building and increased distributing appliances.

The new boilers which the Rocky Mountain Cement Co. are installing will be in position and commissioned about three weeks time. We may then expect a better light service.

J. McPhail-Waggett arrived in Frank on Tuesday. He delivers his popular lecture on "Mark Twain" at the local opera house tonight, and a crowded house may be expected.

J. C. Drewry, the well known breeder of prize-winning Percherons and Holstein cattle, Cowley, has been elected a member of the Alberta Board of Agricultural Education.

The house being erected by F. McLaren will soon be in readiness. The clergymen are already getting down to competition and we understand are prepared to do the trick pretty reasonably.

The fortnightly-pay bill came into force this month and the first of the series of bi-monthly distributions commenced on Saturday last. All the local stores report the biggest day's turnover in their history.

The appeal of S. J. Sergeant for the custody of his two children came up for hearing before Justice Simmons at Calgary on Tuesday, and the children are being held in custody by Inspector Foxwell, of the children's aid society, until Tuesday next, pending the cross-examination of certain witnesses.

T. S. Jackson and P. J. White, representing the Excelsior Development Corporation, Ltd., were in town this week. The above company has recently been incorporated with an authorized capital of \$500,000.

The government has at last mended the road between Frank and Blairmore, so that therefore, which for a while back has been in an upset state, is now in a passable condition. Fred Doubt had the teaming contract for the job.

A nineteen-year-old Bohemian girl named Dubas, daughter of Mr. and Mrs. Char Dubas, died at Frank on Friday night after a brief illness. Burial took place at the Blairmore cemetery on Sunday afternoon and was largely attended. Rev. Fr. DeLestre, of Coleman, officiated.

An item in our last issue would lead our readers to believe that Blairmore possessed unruly children. The "kids" desire us to state that it was the older folks who caused the annoyance, and that they (the kids) are old enough to know how to behave, and are disgusted with their superiors.

It seems awfully mean to the Rocky Mountain Cement Co. to be refused payment for an expense for electric lights. The service is just rotten of late, but in spite of this fact, if a patron kicks about the service or about the price, charged a specially-commissioned man is ready on the spot with the clippers. Talk about a hold up game, but this is the worst yet! A 10 c p. globe is giving an average of 4 c p. light. If you don a 10 c p. globe and get a 4 c p. light therefrom you are expected to pay for the light YOU OUGHT TO GET!

Rev. C. H. Huestis, field secretary of the Lord's Day Alliance, was in town on Wednesday of this week, and addressed a meeting at the Presbyterian church. The report of the secretary-treasurer for the year 1912-13 for the local branch of the organization was received, after which followed the election of officers for the ensuing year. W. P. Williams was elected president, with Revs. J. F. Hunter, W. H. Muncester and W. T. Young as vice-presidents. A vote of thanks was accorded the retiring president and secretary for the good work they might have done.

Billy "Single" Clifford in "Believe Me" at the opera house on Wednesday night drew a large audience. The entertainment was one of the highest character from start to finish, and from the comedian to the talented musician. The music rendered by the three Chicago sisters was about the best ever produced to our theatre goers, and there is every reason to believe that a reappearance of the company would attract more than a crowded house. As it was the spacious opera house was taxed to its fullest by the crowd who gathered to witness the arrival of the famous Billy (Single) Clifford.

Thaw Escapes From Asylum

Harry K. Thaw has made his escape from the Mattewan asylum for the insane at New York, following a period of confinement and fight for liberty since his killing of Sanford White on Madison Square, New York, on June 26th, 1906.

Thaw made a wild dash through an open gate to an automobile standing in waiting, which it was thought conveyed him to the seashore thirty miles distant for embarkation in a yacht.

Later advices state that Thaw has been captured at Cosicook, Quebec, and the Canadian immigration authorities declare that he will be deported from Canada under the immigration regulations.

Thaw will be deported under the clause in the regulations which provides that any person who within five years of his incarceration in a penitentiary or insane asylum enters Canada, may be sent back as an undesirable.

### Bellevue Happenings

Walter Mills spent the week-end in Fernie.

W. J. McGowan was a Bellevue visitor on Tuesday.

Mrs. Patterson, of Lethbridge, moved up last week.

Mr. Neavena recently moved his family up from Lethbridge.

Joshua Atkinson is erecting a new residence at Lime City.

R. Suthir arrived in camp last week from Vancouver Island.

Mr. Irwin did his pulpit pounding in Hillcrest on Sunday night.

Matthew Huddart and Roy Reynolds visited Fernie on Sunday.

E. C. Young, representing the District Ledger, was in town on Monday.

Mr. and Mrs. George Coupland, of Karmis, were week-end visitors in Bellevue.

Mrs. John Hutton left on Saturday evening on a trip to her home in Scotland.

W. H. and Mrs. Irwin attended the summer school at Pincher Creek last week.

No less than six new residences are in process of erection on the northern subdivision.

Miss E. Welsh, of the 41 Mark St. Co., Coleman, was a visitor in Bellevue on Monday.

Frank Hinds, of Blairmore, was in the camp on Saturday, giving his pockets newly lined.

Rev. W. T. Young, of Frank, came up on Monday to take in the "Mark Twain" lecture.

BORN—in Bellevue, on Tuesday, August 19th, to Mr. and Mrs. James Radford, a daughter.

Mr. and Mrs. Wilson and family, of Calgary, are visiting with Mr. and Mrs. E. W. Christie here.

Mrs. G. W. Goodwin is progressing favorably from the effects of her recent painful operation.

Pat. Ryan has a new jet. The doctors name the new arrival "Lunabago" and the owner has our sympathy.

Mr. Johnson ran an animal film at the Lyric theatre on Monday and Tuesday nights that excited great interest.

A horse owned by John Christie, ran away on Monday, doing considerable damage to a buggy and a set of harness.

Wilfred Coupland, of Kiverton Park, Yorkshire, England, arrived in the camp last week, and is the guest of his cousin, Edward Coupland.

Arthur J. Kelly, the local pedagogue, has returned from his vacation and is ready for work. The new school will not be ready for opening until about September 1st.

The geological excursionists visited Bellevue on Monday, and were very much interested in our "terra firma." We wonder what kind of stuff they are accustomed to walk on.

Rev. J. Crawford Anglin, of Hillcrest, preached very acceptably in the Methodist Church on Sunday evening last. During the service Mr. J. McPhail Waggett sang a solo.

A christening ceremony took place at the home of Mr. and Mrs. T. C. Lee on Sunday afternoon, when names were appended to three of the children, Rev. W. H. Irwin officiating.

The lecture on "Mark Twain" by J. McPhail Waggett drew a fairly good audience to the Workmen's Hall on Monday night. Those who were fortunate enough to hear him pronounce the entertainment the best staged in Bellevue for a long time.

Two cats have been loaded with shins taken from the McLeod-Beard chow, and have been shipped to Medicine Hat.
